

EFPP Couple and Family Section 3rd Study Day - 8 December 2023

Cultural and transgenerational aspects in the psychoanalytic work with couples and families

We have the pleasure to invite all colleagues from the couple and family psychoanalytic psychotherapeutic field to join us in celebrating the 3rd PCFP STUDY DAY. This year we will reflect upon a topic that intercrossed our clinical thinking and questions our theoretical grounds: *Cultural and transgenerational aspects in the psychoanalytic work with couples and families*. The STUDY DAY will propose a working frame including clinical material, discussion of the clinical material from the different perspective of the object relations and link theory and group discussions.

We will provide more information regarding the program soon. Please let us know about your intention to participate at cpap.cristina@gmail.com or praxis@psychotherapie-stasch.de

Looking forward to see you,

Cristina Calarasanu & Michael Stasch
PCFP Section Chairs
