

EFPP OPEN ONLINE EVENT on the 9th of May 2025

THE 1ST ADULT SECTION STUDY DAY

Narcissistic Defences - Idealisation, Psychic Retreat and Self-Devaluation in Serious Illness

Introduction

The Study Day is a half-day seminar organised by the European Federation of Psychoanalytic Psychotherapy (EFPP). Its principal aim is to promote a clinical and theoretical dialogue between the four psychoanalytic sections under the umbrella of the federation: adult, child, and adolescent, couple and family, and group psychoanalytic psychotherapy. From many years of work with cancer patients, Nellie Beketova will discuss her understanding of idealisation, self-devaluation, and omnipotence. These narcissistic defenses are organised into a structure very similar to a psychic

retreat, which on the one hand protects the weak, deficient self, and on the other hand provides the illusion of immortality and the possibility of internal communication with someone who has already ceased to exist in a symbiotic merger. Psychic retreat is unconscious for the patient and gradually captures the relationship with the therapist.

Program

Date: 9th of May 2025. **Time:** is in CET
